

PRODUCT INFORMATION

CUTTING & GRINDING DISCS

DESCRIPTION

The Weldability branded range of cutting and grinding discs is a diverse range of medium-hardness discs suitable for ordinary iron and steels.

INFORMATION

The cutting discs, available in a flat or depressed centre form to suit different cutting machines (from upright saws to hand-held units), are suitable for light and heavy metal fabrication, cutting iron and steel successfully without burning. The grinding discs are available in a depressed centre form only, to be used on hand-held grinding machines to grind iron and steels

Weldability provide a wide range of abrasives. These include aluminium oxide sanding discs IH40SD24 – IH90SD60 and convex flap discs, Weldability part numbers ZR36100GKW-ZR80180GKW.
