

PRODUCT INFORMATION

SUPERIOR CANADIAN RIGGER GLOVES

DESCRIPTION

A more industrial version of the 'Canadian Rigger' style handling glove, that offers superior quality and increased protection from dirt, mild cuts and abrasion in a minimal risk handling application.

EAD004

INFORMATION

The Weldability "Power-Riggers" are strong, superior quality lined Canadian Style rigger gloves with chrome leather palm, cotton-drill back and a rubberised cuff. They are well suited to any general working / handling application and provide reliable protection with good tear and puncture resistance.

The gloves are designed as a cost-effective option where standard protection in a minimal risk environment is required.

This glove is CE approved and conforms to EN420.

NOTES

Weldability provides a full range of gloves, which includes a chrome 'Rigger' style (EAD002), fine hide TIG gloves (EAD006), lightweight TIG gloves and fully lined welders gauntlets.
