

PRODUCT INFORMATION

HEATING TORCH

BG312

DESCRIPTION

An industrial propane heating torch measuring 560mm in length with a 60mm diameter burner. This torch incorporates a valve for fine adjustment of the fuel gas flow and a lever to introduce a jet of heat as required. Connects to a propane gas supply via a 3/8 BSP inlet fitting.

INFORMATION

The Weldability range of heating equipment is designed for use with propane gas in a diverse variety of applications which range from the pre-heating of metals to flame cleaning and paint removal. Suitable for white line removal, pitch-heating etc.

The BG312 heating torch has a 60MM burner and measures 560mm in length. It incorporates a valve for fine adjustment of fuel gas flow, and a lever to introduce a jet of heat as required. This torch also features a piezo lighter attachment to automate the ignition of the flame and remove the need for a sparklighter.

The torch is built for connection to a propane gas supply via its 3/8" BSP left-hand threaded connection, located at the base of the handle. A 5m fitted propane hose is available for use with this product, under BG5145-5.

Full user instructions are included with the torch, which is attractively packaged and manufactured within the EU. This product complies with EEC Directive 90/396.

NOTES

The BG312 is just one member of the Weldability family of heating equipment which includes another model that measures 560mm in length, with a 60mm diameter burner but no lighting 'piezo', a model designed for pipe heating, pipe welding, and pipe brazing, with an assortment of interchangeable nozzles and a model with a 45mm burner, measuring 380mm in length.

ARTICLES & ACCESSORIES

Part Number	Product Description
BG312	HEATING TORCH 60MM INC. PIEZO
BG5143	PROPANE HEATING REGULATOR
BG5145-5	PROPANE HEATING HOSE FITTED 5M

TECHNICAL INFORMATION

Burner Diameter:	60mm
Burner Options:	None
Torch Length:	560mm
Torch Weight:	750g
Fuel Gas:	Propane
Fuel Gas Connection:	3/8" BSP (LH)
Fuel Gas Control:	Valve & Lever
