

PRODUCT INFORMATION

ECO HEADSHIELD

EP284005, EP284010

SUMMARY

A great value flip-up or fixed lens thermoplastic helmet with a durable, lightweight design.

TARGET APPLICATIONS

Provides extended throat protection while blocking fumes and smoke from the face. Size and shape allow air to circulate, helping to clear any smoke and fumes that seep in. (If hazardous fumes are present, appropriate respirators must be worn). Seamless shell deflects sparks and spatter during welding, reducing the risk of burn through.

FURTHER INFORMATION

Supplied as standard without lenses, which are available separately, and for self-assembly. Pre-assembled version also available.
