

PRODUCT INFORMATION

PORTA-PROPANE TROLLEY

DZ10014

SUMMARY

Portable Trolley for Oxygen & Propane Cylinders. Ideal for the Home Workshop or for Professionals requiring portability of Gas Welding/Cutting Equipment.

This type of cylinder trolley is manufactured to hold 2 large size cylinders. Its fully welded construction ensures strength and reliability.

Designed for the transport and storage of gas cylinders. Features include a shaped bar and thumbscrew to secure cylinders in place at a range of heights and a hard-wearing epoxy coated finish for maximum weather resistance.

TARGET APPLICATIONS

Cylinder sizes accepted: **N, W, E (BOC)**

FURTHER INFORMATION

- 20cm solid black rubber wheels
- Cylinder restraint – Shaped bar – thumbscrew
- Adjustable height safety bar
- Maximum recommended load : 95kg (gross)
