Dual Voltage TIG/MMA 200Amp Inverter

TSXE1T200DC

Professional TIG welding system

for industry

A professional, microprocessor-controlled inverter welding power source for DC TIG & MMA applications. The use of IGBT technology providing a compact and lightweight machine that is feature rich.

High Frequency ignition and High Speed Pulse and the complete range of fully adjustable parameters normally expected on a professional TIG welding machine.

Main features

- Full digital control with large colour LCD for showing and changing all welding parameters
- Power factor correction
- 230V and 110V
- Spot / repeat high speed / pulse function
- Generator friendly
- Foot pedal available.
